EZ EZ Dock

W Wood Dock

M Metal Dock

Item Name:
Aluminum Gangway

Item number:
MA-GW

Works With: **EZ** **W** **M**

Item Description:

The high quality aluminum gangways can be used on wood, metal or EZ Docks and can be ordered any length or width and include handrails, roller and hinge plate. The highest quality marine aluminum is used in building this gangway as well as the highest level of welding standards. You can add a transition plate for wheel chair access. Decking material is also an option - aluminum, plastic, ipe, redwood, mahogany, etc.

Item Name:
Basketball Backboard and Net

Item number:
MA-BBS

Works With: **EZ** **W** **M**

Item Description:

The EZ Dock fiberglass backboard is provided with a standard hoop and net which can be mounted on any EZ Dock system using four standard hardware connectors or to a wood or metal dock using the flat mounting plates and standard lag or through-bolts/nuts.

Item Name:
Buddy Board

Item number:
MA-BB

Works With: **EZ** **W** **M**

Item Description:

The upright post and anchoring hardware allow you to mount anything at the top, such as this Buddy Board made of wood. Custom Buddy Boards can be ordered made of plastic, aluminum or composite material with a designated number of hooks for tags.

Item Name:
Dock Cart

Item number:
MA-DC

Works With: **EZ**

Item Description:

If you want to move dock sections effortlessly the EZ Dock Cart is designed to allow one person to move dock sections, even the large 80 inch X 10 foot dock or the EZ Port 3. "No flat" tires are included with this cart.

Fixed Pier / Walkway

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:
Dock Shower Stand

Item number:
MA-SS

Works With:   

Item Description:

The Dock Shower Stand is created and supplied by EZ Dock Mid-Atlantic as a custom accessory and is a marine grade polished aluminum accessory designed to attach to an EZ Dock System with one EZ Dock hardware connector or lag/through bolts on wood and metal docks. The Dock Shower Stand simply needs a garden hose attached to the bottom supply which is under water and you instantly have water at the lower spigot level with a hose bib as well as at the shower head using a separate shut off value.

Item Name:
Docking Post Handle

Item number:
MA-DHC

Works With:   

Item Description:

As a boat is docked parallel to a floating dock many people prefer to grab a solid stable upright as the boat is held in place until dock lines can be secured. This post requires one EZ Dock standard hardware connector or can be attached to a wood or metal dock using the mounting plate option with lag or through-bolts/nuts. The marine grade aluminum is designed to be used in salt or fresh water.

Item Name:
Fish Cleaning Table

Item number:
MA-FCT

Works With:   

Item Description:

The Fish Cleaning Station (FCS) attaches to an EZ Dock using standard EZ Dock hardware or lag or through bolts for wood and metal docks. The aluminum marine frame and 18 x 44 inch cutting surface is designed to withstand dockside weather conditions (salt or fresh water). A hose can be clamped to one leg to supply water for cleaning purposes. The legs are easily detached and the FCS can be removed for winter storage. Two kayak storage arms can be added to the FCS legs to store a kayak beneath the table.

Item Name:
Fixed Pier / Walkway

Item number:
MA-PR

Works With:   

Item Description:

High quality aluminum fixed piers can be ordered any length or width with handrails, kick plates and decking (aluminum, ipe, composite, ThruFlow, etc.).

Gangway Winch

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:
Flip Up Ladder

Item number:
MA-FUL

Works With:   

Item Description:

Aluminum ladder available for wood, metal or EZ Dock system can be put in an raised position on dock when not in use to eliminate marine growth

Item Name:
FloatStep? Ladder

Item number:
MA-FSLw3

Works With:   

Item Description:

The FloatStep ladder is a revolutionary move to eliminate problems with marine life growing on the ladder (barnacles, muscles, general marine growth) and to eliminate the issues of electrolysis on metal. Available for floating docks made of wood, metal or EZ Dock as well as Fixed Docks with the number of steps varying from 3 to 10.

Item Name:
Frog Hooks

Item number:
MA-FH

Works With:   

Item Description:

Frog Hooks provide an easy and economical docking system for your boat that allows more boats to fit in the same amount of water since no finger docks, outside pilings or dock lines are required. Available for both floating wood dock systems and EZ Docks, Frog Hooks can accommodate boats ranging from 12' to 28' and are available in galvanized, fiberglass or marine aluminum. They hold a boat securely in place and also serve as ramps for boarding, for working on the motor or lower unit and disembarking after securing the canvas.

Item Name:
Gangway Winch

Item number:
MA - GW

Works With:   

Item Description:

Store a gangway during storms or for the winter in cold climates using the EZ Dock Mid-Atlantic Gangway Winch that mounts on a piling. Simply raise the gangway off the docks and lower it for seasonal use.

Marine Solar Lights - 6 colors

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:

Grease Needle Tip for EZ Port Rollers

Item number:

MA-5803

Works With: 

Item Description:

This grease needle fits on any standard grease gun and allows you to grease the EZ Port 3 and 4 rollers. Simply insert in the grease hole in the middle of the roller and apply grease until it exists both ends of the roller once a season.

Item Name:

Kayak Rack

Item number:

MA-DKR

Works With:   

Item Description:

This marine aluminum kayak rack mounts on an EZ Dock system or any other wood or metal fixed or floating dock. Designed to hold up to four kayaks the standard configuration is delivered to store two kayaks of any length. Paddle boards and surf boards can be stored as well.

Item Name:

Kayak Rack - Wall Mount

Item number:

MA-KA

Works With:   

Item Description:

Store a kayak, paddle board or surf board on your garage wall or any other flat surface for the winter. The two arms in a kit can be mounted to a wall and bungee cords hold the kayak or other water accessory in the cradle arms.

Item Name:

Marine Solar Lights - 6 colors

Item number:

MA-MSL

Works With:   

Item Description:

The Marine Solar Light is an industrial strength solar powered light designed for the harshest salt water environments. Great for dock lighting, marinas, boat houses, safety lighting, channel markers, buoys, obstruction lighting, mooring lights, and just about anywhere you may need a light! And visible for over a mile! Available in constant of flashing mode (1 sec interval)

Pipe Piling Bracket SS

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:
OceanLED Dock Lights

Item number:
MA-UWL6 MA-UWL12

Works With:   

Item Description:

The OceanLED Dock Lights are for use on EZ Dock or other dock systems. This unique dock lighting product offering includes lights that are mounted 24" below the water's surface providing white, blue, or green broadcasted light under the docks. The ambience adds another dimension to your waterfront. Mounting hardware and transformer also available with the OceanLED lights.

Item Name:
Overhead Solar Dock Light

Item number:
MA-MSLC MA-MSLB

Works With:   

Item Description:

This highly efficient solar panel collects energy from the sun and stores it in an advanced lithium battery. At night the powerful LEDs automatically turn on providing ambient light for all to enjoy. When motion is detected on the dock the light doubles in intensity providing more than adequate light for any activity. Available in constant light (MA-MSLC) and blinking light (MA-MSLB)

Item Name:
Piling Tube Bracket

Item number:
MA-RPTD

Works With:   

Item Description:

Marine aluminum bracket used with HDPE pipe to eliminate wear on pilings and winter freeze issues. Acting as a "freeze plug" the piling bracket can be installed to go beneath the free-line allowing the piling bracket to break free of ice during a freeze and change in water depths.

Item Name:
Pipe Piling Bracket SS

Item number:
MA-PPB

Works With:   

Item Description:

Secure the top of a 2" or 3" galvanized pipe using a 90 degree elbow and nipple anchoring the nipple with a heavy duty receiver shaped to attach to a wood piling with lag bolts.

Slidemoor Mooring System

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:
Rescue Ring Stand

Item number:
MA-RRS

Works With:   

Item Description:

The Rescue Ring is created and supplied by EZ Dock Mid-Atlantic as a custom accessory and is made of polished marine aluminum with an arm to store rope and a rescue ring anywhere on Your wood, metal or EZ Dock System. One EZ Dock hardware connector is required to attach to an EZ Dock system or lag/through bolts for wood or metal docks.

Item Name:
Rope Railing Stand

Item number:
MA-DRRS MA-SRRS

Works With:   

Item Description:

EZ Dock Mid-Atlantic offers a nautical rope railing stand for use on the EZ Dock or other dock systems. Rope Railing Stands provide complete flexibility since you can mount them on any number of EZ Dock pockets or at any length on a dock. The rope is not included with the stand. Diameter of Rope, Pipe or PVC that will fit within the stand ? Inside diameter 1.5"

Item Name:
Slide Anchor

Item number:
MA-SA

Works With: 

Item Description:

Designed for use in calm water applications this unique marine aluminum anchoring option is designed to allow docks to adjust to changing water levels. Installation requires marine aluminum i beam which is secured to bulkheads, fixed docks or pilings on which the slide rail travels as water levels change. Kit includes two connection points, additional are available upon request. Standard kit has two connection points with 10' i-beams, cost may vary depending on custom installation requirements of customer.

Item Name:
Slidemoor Mooring System

Item number:
MA-SM

Works With:   

Item Description:

SlideMoor solves most of the docking problems that many boaters will encounter. This simple system ties your boat TIGHT to a bumper/Slide that rides on an 8' track you bolt to your piling. This simplifies docking lines by eliminating ALL lines except the short lines on the SlideMoor which are all on one side of your boat. This eliminates bumpers, whips, outer tide poles. No movement when loading or unloading. Larger boats can fit in smaller slips since this motion is all but eliminated.

Solar Pocket Lights

 EZ Dock

 Wood Dock

 Metal Dock

Item Name:

Solar Dock Dot Lights - Large

Item number:

MA-SDLO

Works With:
  

Item Description:

This light is 2 3/8 inches in diameter and solar powered. It can be recessed into the dock surface on EZ Dock using the EZ Dock pocket fillers or security curbing. For wood or composite docks they can be simply recessed on any dock section. Perfect for accenting your dock in white or blue and easily installed.

Item Name:

Solar Dock Dot Lights - Small

Item number:

MA-SDLR

Works With:
  

Item Description:

Similar to the larger light above with a measurement of 1 3/8 inches in diameter this light can be secured in hole drilled the appropriate size to secure the light or it can be secured with silicone. Both lights charge all day and burn all night. Available in white, blue, green, red, & amber.

Item Name:

Solar Cleats

Item number:

MA-SDCL

Works With:
  

Item Description:

This combination of a cleat on the dock that contains a solar light provides a dual purpose accessory. Anchored using the cleat receiver holes on EZ Dock you have the ability to put them anywhere on the dock. Traditional wood or composite docks use screws or through bolts to secure them.

Item Name:

Solar Pocket Lights

Item number:

MA-SPKL

Works With:

Item Description:

The solar charged pocket lights are designed to fit in empty EZ Dock Connector Pockets and provide dock illumination with an automatic dusk to dawn light cycle. The super bright LED technology is designed to last 18 to 20 hours on a full charge and offers changeable LED colors of white, light blue, dark blue, orange, yellow, and red.

Water Stand
 EZ Dock

 Wood Dock

 Metal Dock

Item Name:
Solar Post Lights

Item number:
MA-SPTL

Works With:   

Item Description:

Designed to be placed on the top of a post which either anchors your dock or is next to it, this is a great way to light up your dock or pier. This light is 4X brighter than conventional solar garden lights and lasts all night! Also available is a flashing red.

Item Name:
Umbrella Bracket

Item number:
MA-UB

Works With:   

Item Description:

This bracket requires one EZ Dock hardware connector or can be mounted on a wood or metal dock using a flat mounting plate with standard lag or through-bolts/nuts. The upright umbrella post receiver is offset from the dock allowing an umbrella to be placed behind a bench mounted on the dock. This accessory is designed to be used in salt or fresh water installations.

Item Name:
Utility Stand

Item number:
MA-PWS

Works With:   

Item Description:

The Utility Stand is created and supplied by EZ Dock Mid-Atlantic. It is designed to mount on any wood, metal or EZ Dock system. For customers that want both GFI power and water, the Utility Stand delivers both plus a hose bib. This polished aluminum Utility Stand attaches to an EZ Dock using standard EZ Dock hardware or lag or through bolts for wood and metal docks. A garden hose is attached as the water supply. An underwater power cable can be used to supply power to the stand.

Item Name:
Water Stand

Item number:
MA-WS

Works With:   

Item Description:

The Water Stand is the perfect addition made of polished marine aluminum designed for salt or fresh water installations. Simply connect a garden hose to the fitting under the water and you have an economical accessory for fresh water on the dock. The Water Stand can be attached to an EZ Dock using a standard hardware connector or to wood or metal docks using lag or through bolts on the mounting plate.
